

WASHINGTON, D.C. 20505

Office of the Deputy for the
Intelligence Community

DCI/IC-75-0111
17 January 1975

Lieutenant General Lew Allen, Jr., USAF
Director, National Security Agency
Fort George G. Meade, Maryland

Dear Lew:

STAT Our Product Review Division (PRD) has been without the services of a Middle East area officer since last June when Miss [] of NSA, who served in that capacity for six months, transferred to the White House Situation Room. Since this Division has recently inaugurated a more systematic way of reviewing national intelligence products, its work is intensifying and the need for a Middle East review officer - already acute - is all the more pressing.

STAT We have made tentative arrangements, through the good offices of Mrs. [] for NSA to provide a replacement for [] STAT The candidate for the position, Mr. Richard [] a GS-14 who is currently serving in Mrs. [] division. He has had broad community experience and has some professional background on the Middle East. Attached is a description of the duties he will perform while serving on the Staff.

STAT Mr. [] PRD Chief, and I would be most appreciative if you gave your approval to Mr. [] transfer to the IC STAT Staff for a two-year period, on a reimbursable basis. I am sure that both your organization and mine would ultimately benefit from such an arrangement.

Sincerely,

[] STAT

for Lieutenant General, USA
Deputy to the DCI for the
Intelligence Community
